

# DVD70

DVD Packaging Machine

# Economical and Simple Operation

#### Amazingly compact size

With its space-saving design, you can easily incorporate it into a streamlined packaging line.

#### Superior cost-performance rotation speed

A rotation speed that is most common and in-tune with the DVD/CD production facilities of 70 rpm has been achieved.

#### Standard unit with reduced number of parts and focus on essential features

Successfully reduced the number of parts while maintaining high performance, and enables easy maintenance.

#### Compatible with multi-cases, regular cases and slim cases

Flexibly accommodates the various types of different DVD/CD cases that exist in the Media market.
